

Specialty Medications

Specialty medications are normally covered under the medical plan rather than the prescription drug plan. Please contact CVS Caremark Specialty Pharmacy at **1-800-237-2767** or refer to their website: www.cvscaremarkspecialtyrx.com for details on how specialty medications are handled for your Plan.

Utilizing CVS Caremark Specialty Pharmacy will save you money. If benefits are considered under the medical plan, discounts are applied and benefits are payable at in network level. Using a nonnetwork specialty pharmacy does not provide you with any discounts and is payable at out of network benefit level.

What is a Specialty Pharmacy?

Specialty pharmacies fill prescriptions for complex conditions. Medicines handled by a specialty pharmacy often include:

- Injectable and infusion drugs

- Biological medicines
- High-cost medicines
- Medicines that have special delivery and storage requirements; for example, drugs that need refrigeration.

What to Look for in a Specialty Pharmacy Provider

Specialty drugs can help you stay healthier but getting the most from them requires extra care. CVS Caremark helps make it easier to manage your condition and enjoy better quality of life with the experienced support of their pharmacist-led teams. They have over 30 years experience helping people with their specialty pharmacy needs. CVS Caremark Specialty Pharmacy is accredited by two independent health care groups — The Joint Commission and URAC. Their accreditation reflects high standards for quality and safety in health care.

Helping You Stay Healthier — Personalized Attention

When you choose CVS Caremark to provide your specialty drugs, you will get personalized support from a team of clinical experts trained in your condition. Your team will be led by a pharmacist or nurse and can help you with:

- Coordinating delivery of your refills
- Understanding and managing your condition
- Taking your medicine correctly
- Troubleshooting side effects
- Proper medicine storage

In addition to regular calls to refill your prescription, you will be sent useful educational materials by mail. And whenever you have questions, you'll be able to reach a specialty pharmacist by phone 24 hours a day, 365 days a year. You can also easily find information about your condition and medication at www.cvscaremarkspecialtyrx.com.

Helping You Save Time

It's faster and easier to get your specialty drugs from CVS Caremark. You'll get complimentary delivery by mail to your home, office or other location of your choice. Or, for certain therapies and locations, you can pick up your specialty drugs at the CVS/pharmacy nearest you.* To make it easier to get started on your specialty drug, their benefits experts will help manage your specialty pharmacy benefit coverage and get any prior authorizations needed.

Convenient, Secure Shipping

The quality of your medicine is maintained during shipping with secure, temperature-controlled packaging. To help protect your privacy, the outside of the shipping package is non-descriptive. The supplies you need to take your medicines, such as syringes and alcohol swabs will be included.

* Call 1-800-237-2767 to determine if this service is available for your medication and CVS/pharmacy location.
